[Penn State Cooperative Extension Tour](#)

In May educators from the Northeast Region of the Penn State Cooperative Extension toured the Kitchen Incubator and also The Cutting Board Factory. Many times the educators are the first point of contact for people interested in starting a food business and this opportunity provided them information about the CTTC programs. Also present were CTTC Board Vice-President Ken Okrepkie, Executive Director Paul Browne, Kitchen & Center Services Manager Nancy Perri and Maria Montenegro from the University of Scranton SBDC Agribusiness and Food Specialty Center. We were very appreciative that so many representatives of Penn State took the time to tour our facility and acquaint themselves with our programs. Special Thanks to The Carbondale News for the photo and to Tom Fontana for video taping the event as well. The video can be viewed at this link:
