Let's get
COOKING

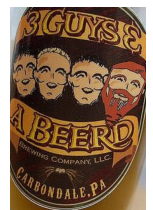

The Kitchen Incubator now has a 40 gallon steam kettle available for tenants who wish to make sauces, salsas, jams, jellies, etc. It should be connected and ready to go within the next few weeks! Thank you to PNC Foundation and the US Department of Agriculture for providing grant funds for this purchase.

The CTTC would like to thank Representative Sid "Michaels" Kavulich and Representative Frank Farina for visiting and touring our facility. It was wonderful to have you here and we thank you for all the time you each took to understand our operations and meet with our tenants.

Nice to see our very own 3 Guys & A Beer'd on WNEP with Ryan Leckey talking about home brewing. All of their tips and the video are available here:

NEWS & EVENTS FROM AROUND THE CTTC

GREAT NEWS FROM PROVA SYSTEMS:

Franklin County, Kansas EMS Adopts Prova Systems™ Fleet Manager-in-a-Box™ System

Carbondale, PA February 6, 2013 – Franklin County EMS in Ottawa, Kansas has implemented Prova Systems' Fleet Manager-in-a-box™ wireless fleet management system for their emergency services fleet. The system consists of Prova's wireless OBD-2 fleet management monitors (VHM) and a wireless Zigbee/802.15.4 access point base station.

The VHMs have been installed into their emergency vehicles and monitor every aspect of their EMS vehicle use including trip tracking, engine performance and diagnostics including diagnostic trouble codes (DTCs) and driver behavior monitoring. The devices automatically update the meters used to track and trigger preventive maintenance actions with mileage, engine running time, fuel usage and hard braking meters.

Franklin County also selected Prova's partner, Fleetio, to manage the data collected by Fleet Manager-in-a-box™ and provide Franklin County with a comprehensive solution. Fleetio allows the EMS department to streamline their fleet management responsibilities. Critical data like idle time, fuel efficiency and driver behavior are downloaded from vehicles and uploaded directly to their Fleetio account.

"We needed an automated wireless system that would help us manage our maintenance program and more importantly to track vehicle performance better to keep our fleet in top running condition." emphasized Nick Robbins, Franklin County EMS Chief. "We also needed a system that could keep up with our mission critical responsibilities without breaking the bank. Not only does our Prova Systems and Fleetio system meet those requirements it was so easy to install that we were able to do it ourselves in a couple hours."

Meet a CTTC Tenant:

The Cutting Board Factory is a National Manufacturers Distributor offering a complete line of thermo plastic cutting boards. They specialize in cut-to-your-size boards and other specialty polymer sheets with over thirty years experience in polymer application solutions.

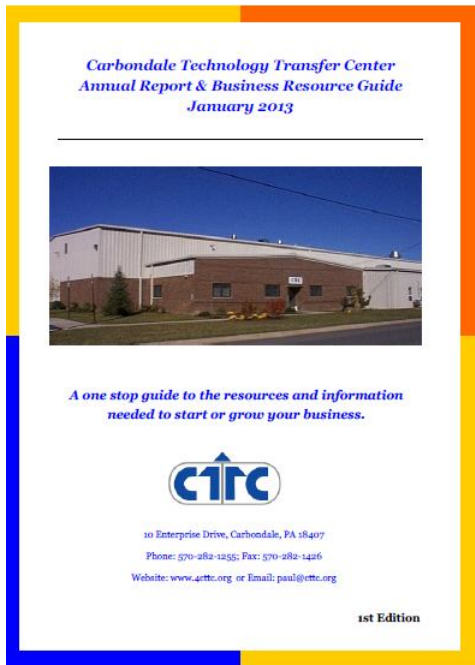

Their mission is to provide their customers with the best service, price and quality and to ensure total customer satisfaction.

The Cutting Board Factory serves industrial, commercial, supply house distribution and the general public. Natural/white and colored HDPE Cutting Boards are available for restaurants, delis packing plants, meat markets, etc. For a complete view of all their products and services visit them at: www.thecuttingboardfactory.com or call toll free to 1-877-524-8424. Additionally you can contact owner Joe Fesalovich at: JoeF@TheCuttingBoardFactory.com. Give them a try—you will be pleased with their products and service.
